Good Day

kindly assist with generating infant mortality from the Zimbabwean DHS using individual surveys datasets.

Thank you

Hi there,
Could you figured your infant mortality question out? I have the same question. I haven't came across such solution in the posts, I am using Stats, in case you already figured it out, please share me.
Thanks,
Daniel

A Stata program for under-5 mortality rates will be posted on GitHub sometime in the next few months.

We now have repositories of code written in Stata and SPSS available on Github. Please reference these code repositories as a resource for code to match or calculate DHS indicators. The code repositories can be found at:
https://github.com/DHSProgram/DHS-Indicators-Stata
https://github.com/DHSProgram/DHS-Indicators-SPSS
