I would like ask for scripts or syntaxes or do files for defining Child exposed (Y|N|Unkw) using women's module questions - AIS survey 15 - Mozambique.
Thanks a lot

Dear User, please check out the following resources:
Guide to DHS Statistics
The Standard Recode Manual
DHS YouTube Video series
Using Datasets for Analysis
Help with Stata
In addition, you can search the DHS User Forum for keywords and you can post your code. Other users in the DHS User Forum Community may be able to help.
It would be helpful if you could post code you already have. This would be helpful to our users in providing guidance or helping you troubleshoot.
Thank you!
