Subject: How to calculate stunting without hc70

Hello, All,

I'm using both new and old data from Ethiopian DHS (i.e 2000 &2016) for comparison. The new one has hc70, but the 2000 didn't.

Can anyone help me how to calculate stunting for Stunting for 2000 that match with the new code (hc70) using R.

Thanks,
Fikrewold Bitew
