I would like to reproduce a graph (graphique 2.1 Pyramide des âges de la population, p23) from the Mali 2014 DHS report in a chapter I am writing for a book being published by Oxford University Press. Do I need copyright permission and if so how do I obtain this?

Hi Sara - There's no copyright, as we are a USAID funded project and all our materials are available for public use. We ask only that you cite the report with the recommended citation provided in the front matter. Thanks for checking!
