Hi,  
I have been working on women's empowerment from DHS dataset.  
Here the part, Domestic violence has been asserted in different aspects.  
But, when I am reading scientific articles on violence against women based on DHS data, most of them indicate it as 'Intimate Partner Violence'.  
Now, can anyone help me to make me clear on the difference or comparison among 'Domestic Violence', 'Spousal Violence', and 'Intimate Partner Violence'? (Based on DHS data)  
Thank you.
