Hi, I am looking for a variable that was available in DHS surveys until Phase-5 but I can not find it in the surveys after that.

It was Question 307 in DHS phase-5, here is the exact wording:

"Now I would like to ask you about the first time that you did something or used a method to avoid getting pregnant. How many living children did you have at that time, if any?"

I would appreciate if you could guide me if this variable is available in Phase-6 onward and what is the question number?

Thank you so much.
Saman
