Hello,

I have a question about the domestic violence questions D112A, D117A, and D124. These refer to the period in the last 12 months, but I was wondering if there are any surveys/countries where they instead refer to the period in the last 30 days. For example a variable similar to D117A Times hit by other than partner last 12 months that would instead be Times hit by other than partner last 30 days.

Thanks in advance,

Liliana

Dear User, to my knowledge we do not have a variable indicating 30 days in the domestic violence section. If it did appear in a survey, it would have been recoded as country specific. I checked several surveys and did not see any.

Thank you for your post.
