Hello,

I am doing research on married female labor force participation in Indonesia and the Philippines. In order to compare both countries, I used DHS surveys 2017, I found most of the necessary determinants in Individual Record folder although I can not find the type of earnings of husband (same as for women - V741), husband's control over own's cash earnings (same as for women - V739), the type of husband's employer (same as for women - V719). Could you please let me know where I should search for this data?

Thank you in advance

Regards,  
Aurelija
