Dear Bridgette,

I would like to ask about Table 9.16 Content of postnatal care for newborns. There is information on Counselling on breastfeeding and Observation on breastfeeding. Where I can see the data in the dataset? I am using the KR file for analysing the infant and young child feeding (IYCF) practices.

Please your kind help,

many thanks and warm regards Ha'i

Dear Ha'i,

These variables are m78d and m78e, respectively. To find variables of interest in the future, if you use Stata you can type lookfor keyword. You can also try searching the Guide to Statistics (https://dhsprogram.com/Data/Guide-to-DHS-Statistics/index.cf m), which provides information on how to calculate the indicator to match the table.

Thank you, Lindsay Mallick Lead Research Analyst
